I am now back in Tucson for the next seven months. We can now say with some confidence that Gold has a "V"-extended bottom. I am NOT long unfortunately. V bottoms are extremely tough to trade

Chart of educational value

This is a great example of a failure buy signal

1. Original downside BO was sell signal
2. Decisive close back within pattern was failure signal
3. Often after failure mkt will retest boundary - in this case also a foot shot buy

I was busy last week and this for seasonal move back to AZ. I saw it but was hesitant to enter orders for sym tri when I was not on top of mkt's \$ZM_F
