Chart of tradeable interest. I am adding this chart to radar screen. This is an energy play. I prefer patterns with a range of less than 15% of underlying value, maybe up to 25%. Here the range from 2018 low is too wide for me so I will play pennant from 2022 high -- that it connects to 2018 high is just coincidental although a larger target from Cup and Handle comprising entire chart is a possibility, just not a target that I would use [\\$CRAK](#) THINLY TRADED ETF
