Three of the past six days have been inside days in Gold **\$GC_F**

While the Hikkake pattern when used systematically only offers a slight edge, tactically it can be more useful

Monday was an ensnare bar

Bitcoin. I do not hold a position in crypto for the prop account. There is some weakness in the charts - namely, price is halting in the area of the 2021 high, a 3DTSR has been triggered and price has now spent three full days below the 8 DMA. I am thinking that the sub \$58 zone is a buy **\$BTC**
